

A MESSAGE FROM THE ADMINISTRATOR

"I believe water is the biggest environmental issue we face in the 21st century in terms of both quantity and quality. In the 30 years since its passage, the Clean Water Act has dramatically increased the number of waterways that are once again safe for fishing, swimming, and drinking. Despite this great progress in reducing water pollution, many of the Nation's waters still do not meet water quality goals. I challenge you to join President Bush and me to finish the business of restoring and protecting our nation's waters for present and future generations."
